Terminal Disclaimer

1. The terminal disclaimer filed on September 14, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Pat No 5,897,507 has been reviewed and is NOT accepted.
2. The terminal disclaimer does not comply with 37 CFR 1.321(b) and/or (c) because:
 - a. The person who signed the terminal disclaimer is not recognized as an officer of the assignee, and he/she has not been established as being authorized to act on behalf of the assignee. See MPEP § 324.
3. An attorney or agent, not of record, is not authorized to sign a terminal disclaimer in the capacity as an attorney or agent acting in a representative capacity as provided by 37 CFR 1.34 (a). See 37 CFR 1.321(b) and/or (c).

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 3736

5. Claim 1 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 5,897,507 to Kortenbach et al in view of Ryan et al (5,285,795). Kortenbach et al claim a distal assembly having a first jaw and a second jaw pivotable relative to the first jaw. An irrigation conduit is coupled to the first jaw and an aspiration conduit is coupled to the second jaw. A flexible tubular member comprising irrigation and aspiration conduits are claimed. A proximal actuator is claimed, Kortenbach et al do not claim an irrigation port or an aspiration port. However, Ryan et al teach that in a biopsy system having irrigation and aspiration capabilities, it is well known in the art to provide a proximal actuator handle comprising an irrigation port (32) and aspiration port (34). See Figure 1. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the proximal actuator of Kortenbach et al with an irrigation port and an aspiration port, as taught by Ryan et al, to provide the necessary inlet for irrigation and outlet for aspiration capabilities.

Allowable Subject Matter

6. Claims 2, 4-6 and 86-88 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. The following is a statement of reasons for the indication of allowable subject matter: Once the above discrepancies regarding the Terminal Disclaimer are overcome, the claims would be placed in condition for allowance since no prior art could

be found teaching or suggesting the irrigation conduit leading to and in fluid communication with the first jaw and the aspiration conduit leading to and in fluid communication with the second jaw, as claimed in Claim 1.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
